Accounts Receivable Web Report Writer

This new addition to the report writer family will allow districts to create their own reports for the receivables system (MAR). The current MAR system is very limited in reporting abilities and the addition of this new report writer makes any report possible. Areas that can be reported on include (but are not limited to) invoices, cash receipts, donation and grant receipts, and the customer file.

INCREDIBLE DISCOUNTED PRICE

- less than 20% of full license cost!

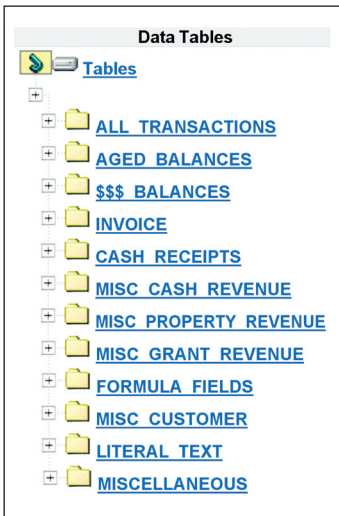

| | |
|--------------------------|--------|
| Less than 5,000 students | \$1500 |
| 5,000-15,000 students | \$3000 |
| 15,000+ students | \$4500 |

Global features

- Display, Select and Sort on 13 different files.
- Save reports that can be rerun at anytime with new criteria selected.
- Generation of export files for Ministry and Government reporting.
- Software maintenance and unlimited number of fields to display, select or sort on.
- Fields are easily selected, removed, or re-ordered.
- Report output in PDF, CSV or HTML. CSV exporting opens immediately with no file transfers required.
- Reports can be emailed.
- Mail merges can be performed to generate letters or documents that incorporate the data requested.
- Display columns and header footer titles can be renamed and resized.
- Selection of data allows for include or exclude lists.
- Font size, cell spacing, background colour and paper orientation/size are definable for each column.
- Ability to compress reports to view sub-totals only (ie one record per customer).
- Sorting of all fields in ascending or descending order.
- Selection criteria can be displayed in the title of the report.
- Graphing abilities available in pie charts, stacked bars, line graphs.

The new formula feature makes it easy to take data fields and create calculations.

Reports Types

- All cash receipts for specific date or period ranges. Sorted by any field in the cash receipt system (receipt date, batch period, payment type, receipt number, etc).
- All cash receipts for a range, selection or all miscellaneous (MISC) customers.
- Active receipts with the ability to exclude cancelled receipts.
- Cancelled receipts only.
- Cash receipts for a specific payment type only.
- Custom Aged Trial Balance Report.
- Invoice reports for specific customers, date ranges or invoice ranges.
- Custom Grant and Donation Tracking reports.
- Any reports written using the RRW tool can be added to a Dashboard.

Additional information

- Annual maintenance costs will be 20% of discounted prices shown above and will only be charged until customer is migrated to BAS2000 or Dynamics GP solution at which time it will be removed.
- Training and installation costs are 2 days.
- Requires SRB Data Warehouse to be in place. (Warehouse tool can be used for all SRB report writers and BMW tool to increase speed and efficiency).
